

DP WORLD

TERMINAL HANDLING CHARGES (THC) PAYMENT PROCESS FOR IMPORTING FULL CONTAINERS

Following Administrative Decision No.2 by the **Dubai Maritime Authority**, the process for THC payment is changing

DP World will start collecting Import THC directly from Importers for full containers being discharged from vessels arriving from 1st of November 2023 onwards.

What does this mean in practice and how will it affect you?

The reality is that its a minor change...

Collect Digital Delivery Order from Shipping Agent through Dubai Trade

Process Import Declaration from Dubai Customs and proceed to Dubai Trade platform for DP World payment

DP World payment can be settled even before processing Customs Declaration

After entering the Digital Delivery Order or Customs Declaration Number, the system will provide full details of the charges

Alongside all charges, the user will see a new tariff item for Terminal Handling Charge (THC) displayed in addition to other applicable charges

Having reviewed the charges, you will then be able to proceed to make your payment

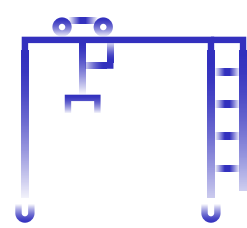

After successful payment a 'Tax Invoice' will be generated

After payment, the user can proceed for e-token / Gate booking for delivery of the container

In summary...

The seamless process remains unchanged

Terminal Handling Charges (THC) will simply be collected through existing DP World Payment process via Dubai Trade
